PART II.

SUBJECTS UNDISCUSSED.

BIRTHDAY SESSION, JUNE 1922.

GENERAL SUBJECTS.

FINANCIAL.

(No. 1.)

Subject No. 1.

Increase of the rate of interest on Charitable Endowment funds.

Mr. A. Srikantappa, Doddballapur Municipality.

Summary of Representation.

The concession of allowing the rate of interest on endowments at 5 per cent per annum ceases with effect from 1922-23. Government may be pleased to order that the rate may be increased from 5 to 6 per cent. as its reduction would defeat the object with which these deposits were offered.

Note:—Not discussed owing to the absence of the proposer.

REVENUE—(LAND REVENUE).

(Nos. 2 to 17.)

Subject No. 2.

Strict conservation of strips on either side of the roads.

Captain Herbert Browne, North Mysore European Planters' Association.

Summary of Representation.

(1) Strict conservation of the prescribed strips of roads supposed to be kept open on the sides of all public roads, may be ordered.

(2) Only one authority should be held responsible for the strip of reserved land on each side of Provincial and District Fund roads and the same may preferably be handed over to the charge of District Boards.

Note:—Not discussed owing to the absence of the proposer.

Subject No. 3.

Grant of waste lands at an upset price instead of by sale at a public auction.

Mr. Patel Kenchappa, Holalkere Taluk.

Summary of Representation.

Government lands lying waste for years together are being disposed of by public auction. By doing so the applicant, on account of his poverty or party feeling, will not be able to procure the land he wants. It would be better to grant such lands to the applicant (*darkhastdar*) within one month from the date of his application for an upset price without recovering any *malki* thereon, provided that within the three preceding years the land was lying waste without *darkhasts* being received.

Note:—Not discussed owing to the absence of the proposer.
